Intelenet HealthCare
Coding Solutions

Intelnet HealthCare - Coding Solutions

Our client, a leading provider of hospital based clinical services in the USA, was looking at ways to improve its market share, leverage global delivery and improve efficiency while reducing operating costs.

improve efficiency

leverage global delivery

improve its market share

reducing operating costs

Our client

a leading provider of hospital based clinical services in the USA

What we did

We hired and trained the medical coding team at our global delivery centers as an extension of clients billing operations and introduced ICD-9 CM Coding for Clinical Services across a payor mix of Medicare; Medicaid; commercial Payor's and the Blues.

1

2

Intelnet built a solution around consolidation, process transition, process standardization and exception based processing. Our solution resulted in improved accuracy and cycle time helping minimizing revenue leakages, it "Days-in-department".

3

Coding processes & procedures were created in a record time ensuring seamless delivery in our client's Practice Management Systems. Currently over 300 ICD 9 Coders work a multi-shift operation which has helped reduce the turnaround time.

Migration specialization from ICD 9 to ICD 10

ICD-10 certified trainers and transition compliant.

Remote Coding staff augmentation Model

RAC Audit compliant with 98% plus coding accuracy

Specialty Focused coding services

Six Sigma leaders align to each account to ensure maximum utilisation

Expertise in Physician and Hospital Coding

Intelnet HealthCare - Coding Solutions

Intelnet offers Providers, Physician Groups and Individuals a wide variety of services customized to help maximize workflow and revenue while upholding the coding compliance standards as per the HIPAA, OIG, and RAC requirement.

We work for a network of over 429 hospitals and have brought about annual savings of about 2 million in staffing costs for our client
